12:00 PM - 7:00 PM**

“Protect Yourself and Others”

African Women and Children HIV/AIDS Health Summit 2006 is a public health conference organized by African Hope Committee Inc., which theme is **“Protect Yourself and Others”** Currently, there's no vaccine to prevent HIV infection and no cure for AIDS. But it's possible to protect yourself and others from infection. That means educating yourself about HIV means of transmission and avoiding any behavior that allows HIV infection.

Visit www.afriquehope.org for update information or email us at info@afriquehope.org or call 212-862-9010, Fax# 212 862-1949
